10. Arbitration Rules & General Principles

10.1 Administration • Occasional disputes are inevitable in any competitive activity governed by rules. It is recognized that at the more significant levels of competition, emotions run high and the outcome is much more important to the individual competitor. However, effective match administration and planning will prevent most, if not all, disputes.

10.2 Access • Protests may be submitted for arbitration in accordance with the following sections for any matter except the actual scoring of targets. However, protests arising from a disqualification for a safety infraction will only be accepted to determine whether or not an infraction as described by the range official was in fact unsafe. The commission of the infraction may not be protested.

10.3 Appeals • Decisions are made initially by the Range Officer. If the complainant disagrees with a decision, the Range Master must be summoned and asked to rule and his decision is final.
